

October 16 Speaker

The speaker at the lunch meeting was Inv. Lew Kellison with the Southern VA Internet Crimes Against Children Taskforce. The taskforce is run by the Bedford County Sheriff's Office and began with a grant in 1998 under Sheriff Mike Brown. To understand the need, Inv. Kellison shared that 95% of teens today are on-line, many missing children can be traced to on-line activity with a predator, and 1 in 25 children are contacted in some way by a predator while on-line. The demand is great and these men and women are doing an outstanding job protecting our kids from becoming victims.

Inv. Kellison speaks to the club about internet predators and keeping kids safe through the taskforce he works with in Bedford County.
